Assembler-Manufacturing

Description

A Manufacturer of parts for the Railway Industry is looking for an assembler to join their hydraulic hose assembly line.

Responsibilities

Performs simple, repetitive, production-line, short-cycle assembly requiring adjusting and fitting where tolerances are established.

- Cut the hose according to the length specifications
- Assemble fittings, crimp sleeves, and adapters on the hose
- Use a pneumatic assembly machine to insert the fitting.
- Use a crimp machine to permanently affix the hose fitting
- Safely operate this equipment with moving parts (apply mechanical knowledge and safety)
- Perform all required tests and measurements
 - Measure length w/ rule or tape measure (inches, fractions of inches)
 - Measure crimp diameter w/ digital caliper (comfortable w/ decimals)
- Do WIP (work in process) inspections on components and assemblies
- Box for shipment to customer when applicable
- Records hours expended in the Daily Time Allocation/Production Cards
- Maintains the equipment, workplaces, and the general area in a neat and orderly manner
- Complies with OSHA and EPA regulations
