Press Set up

Description

The Press Setup candidate is a hands-on, mechanically inclined individual who is responsible for preparing the press for production by selecting the appropriate tools, removing and installing dies, punches, blank holders, knockouts and related tooling, making required mechanical adjustments, and ensuring the press is properly set up and guarded before production begins

Responsibilities

- Hands-on experience working with industrial machinery
- Ability to read and follow work orders, and basic drawings
- Ability to understand and follow detailed setup procedures with trainer.
- Setting up and adjusting metal-forming equipment
- Make manual machine adjustments to achieve proper part dimensions and quality
- ability to troubleshoot machinery and make precise mechanical adjustments
- installing and aligning tooling
- Use measuring tools such as tape measures and basic precision measuring equipment
- Ability to work independently while maintaining strict safety and quality standards.
- Ability to safely handle and position heavy tooling using designated equipment.

The ideal candidate is a hands-on mechanical problem solver who understands machinery, tooling, and precise setup work.

Qualifications

- Press setup or metal-forming experience
- Machine setup/operation
- Machining or tooling
- Mechanical maintenance
- Hydraulics or industrial equipment
- Manufacturing or fabrication
- Military mechanical/technical experience
